

1. Record Nr.	UNINA9910768437503321
Autore	Spandau Ulrich
Titolo	Complications during and after cataract surgery : from phacoemulsification over secondary IOL implantation to dropped nucleus // Ulrich Spandau, Gabor B. Scharioth
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2022] ©2022
ISBN	3-030-93531-0
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (350 pages)
Disciplina	617.742059
Soggetti	Cataract - Surgery - Complications
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Intro -- Introduction -- Contents -- Abbreviations -- Fundamentals for Complication Management -- 1 Basics -- Abstract -- 1.1 Difficulty of Cataract Surgery in Relation to Density of Nucleus -- 1.2 Difficulty of Cataract Surgery in Relation to Other Factors -- 1.3 Anatomy of Different IOL Implantation Sites at the Slit Lamp -- 1.4 Anatomic Requirements for an IOL Implantation -- 1.5 1-piece IOL Versus 3-piece IOL -- 1.6 Correct IOL Choice -- 2 Essential Surgical Techniques for Complication Management -- Abstract -- 2.1 Surgical Technique: SICS, the Modified ECCE -- 2.2 Trocar Surgery for Cataract Surgeons -- 2.3 Get Acquainted with Your Surgical Equipment -- 2.4 Summary -- 3 Planning for Surgical Complications -- Abstract -- 3.1 Different Cases for Surgical Planning -- Easy and Difficult Phacoemulsification -- 4 Phacoemulsification of an Easy Cataract -- Abstract -- 4.1 Equipment -- 4.2 Surgery of an Easy Cataract -- 5 Phacoemulsification of a Difficult Cataract -- Abstract -- 5.1 How to Approach a Difficult Cataract -- 5.2 Anaesthesia -- 5.3 Instruments for a Difficult Phacoemulsification -- 5.4 Problems During Side Incisions -- 5.5 Problems During Main Incision -- 5.6 Problems During Capsulorhexis -- 5.7 Problems DURING Capsulorhexis -- 5.8 Problems During Hydrodissection -- 5.9 Problems During Phacoemulsification -- 5.9.1 Posterior Capsule Rupture and Dropping Nucleus -- 5.10 Problems During I/A-Implantation of Capsular Tension Ring -- 5.11 Problems

During Removal of Cortex -- 5.12 Problems During IOL Implantation -- 5.13 Problems During Final Steps -- Complication Management with Trocar Cannulas -- 6 Anterior Vitrectomy and Other Surgeries with Trocars from Pars Plana -- Abstract -- 6.1 Equipment for Surgery of Anterior Segment with Trocars -- 6.1.1 Setup of Anterior Vitreous Cutter -- 6.2 Surgical Setup for Trocar Surgery. 6.3 Settings for Anterior Vitrectomy with Phacoemulsification Machine -- 6.4 Surgical Basics of Anterior Vitrectomy with Trocars -- 6.5 Trocar Surgery with One Trocar -- 6.6 Trocar Surgery with Two Trocars -- 6.7 Anaesthesia -- 6.8 The Surgical Technique of Insertion of Trocar Cannulas -- 6.8.1 Anatomy of Pars Plana -- 6.8.2 Insertion of Trocar Cannulas -- 7 How to Approach a Surgical Complication -- Abstract -- 8 Posterior Capsular Rupture -- Abstract -- 8.1 Management of Posterior Capsule Rupture -- 8.2 IOL Scaffolding for Residual Lens Pieces in Capsular Rupture (Agarwal Technique) -- 9 Surgical Management of Subluxated IOL from Pars Plana -- Abstract -- 10 Surgical Management of Dislocated Cortical Fragments -- Abstract -- 11 Surgical Management of Posterior Capsular Opacification from Pars Plana -- Abstract -- 12 Surgical Management of Positive Vitreous Pressure (PVP) During Cataract Surgery -- Abstract -- References -- Surgical Techniques for Advanced Complication Management -- 13 Small Incision Cataract Surgery (SICS=Modified ECCE) -- Abstract -- 13.1 Standard Instruments for SICS -- 13.2 SICS Surgery -- 14 Surgical Management of Zonular Lysis -- Abstract -- 14.1 Cataract Surgery with Zonular Lysis -- 14.2 Zonular Lysis of 1 Quadrant -- 14.3 Zonular Lysis of 1-2 Quadrants -- 14.4 Zonular Lysis of 2-3 Quadrants: ICCE -- IOL Extraction Techniques, Iris Capture and Capsular Phimosis -- 15 Extraction of an Acrylic IOL Through Cutting of IOL -- Abstract -- 16 Extraction of an Acrylic IOL Through IOL Refolding -- Abstract -- 17 Extraction of a Silicone IOL Through Bi-secting of IOL -- Abstract -- 18 IOL Explantation with Intraocular Rolling -- Abstract -- 19 Iris Capture by the IOL Optic -- Abstract -- 20 Peeling of Fibrosis in Capsular Phimosis -- Abstract -- Secondary IOL Implantation Techniques -- 21 IOL Implantation in the Sulcus -- Abstract. 21.1 Introduction -- 21.2 Correct IOL Choice -- 21.3 Anaesthesia -- 21.4 Sulcus Implantation with Intact Anterior Capsule -- 21.5 Sulcus Implantation with Defect Anterior Capsule -- 22 Iris-Claw IOL Implantation -- Abstract -- 22.1 Special Instruments for Iris-Claw IOL Implantation -- 22.2 Iris-Claw IOL Implantation Surgery -- 22.3 Complications -- 22.4 FAQ -- 23 Intrasceral IOL Implantation (Scharioth Technique) -- Abstract -- 23.1 Standard Instruments for Intrasceral IOL Implantation -- 23.2 Intrasceral IOL Implantation Surgery -- 24 Intrasceral IOL Fixation with Flanged Haptics (Yamane Technique) -- Abstract -- 25 Scleral IOL Fixation -- Abstract -- 26 Scleral Fixation of Dislocated IOL In-The-Bag (Hoffmann Technique) -- Abstract -- 27 Fixation of IOL with Iris Suture -- Abstract -- 27.1 Suturing an IOL to the Iris -- 27.2 Suturing an IOL-Capsular Bag Complex to Iris -- 27.3 Intra- and Postoperative Complications -- Advanced Complication Management of Posterior Segment Using a Phacoemulsification Machine -- 28 Introduction and Possible Indications for Trocar Surgery of Posterior Segment -- Abstract -- 28.1 Checklist for Trocar Surgery of Posterior Segment -- 28.2 Possible Indications for Trocar Surgery of Posterior Segment -- 28.3 Anatomy of Pars Plana Vitrectomy -- 28.4 Surgical Set-Up -- 28.5 Equipment for Trocar Surgery of Posterior Segment -- 28.5.1 Devices -- 28.5.2 Instruments -- References -- 29 Intraocular Pressure During Vitrectomy-Clinical Assessment and Surgical Action -- Abstract -- 30 Surgical Management of a Dropping and Dropped Nucleus -- Abstract

-- 30.1 Recovery of a Dropping Nucleus from Pars Plana -- 30.2
Operative Planning and Strategies for Surgical Management of Dropped
Nucleus -- 30.3 Extraction of a Posteriorly Dislocated Soft Nucleus with
Vitreous Cutter.
30.4 Extraction of a Posteriorly Dislocated Hard Nucleus with
Intravitreal Phacoemulsification -- References -- Surgical Pearls of
Ocular Trauma -- 31 Corneal Perforation -- Abstract -- 32 Traumatic
Cataract -- Abstract -- 33 Traumatic Mydriasis -- Abstract -- 34
Iridodialysis -- Abstract -- 34.1 Iris Defect -- 35 Surgical Management
of a Traumatic Aniridia and Aphakia with Iris and IOL Prosthesis --
Abstract -- 35.1 Fixation of a 3-Piece IOL in a Foldable Iris Prosthesis
(Human Optics®) and Implantation of Combo IOL-Iris Prosthesis
Through a 2.4 mm Incision -- 36 Corneal, Lens and Retinal Perforation
with a Nail -- Abstract -- Materials and Companies -- List of All Pits
and Pearls -- Index -- sales@oculus.de -- em> -- < -- /Para>
-- < -- Para ID= -- < -- /Para> -- < -- Para ID=.
