Nota di contenuto	Part 1 Primary Bone Tumors and Osteosarcoma -- 1 Classification of Primary Bone Tumors and of Osteosarcoma -- 2 Epidemiology -- 3 Clinical, Radiological and Histological Diagnosis -- 4 Prognosis -- 5 Treatment -- Part 2 Rehabilitation -- 6 Comprehensive Oncologic Rehabilitation and Goals -- 7 Team and Rehabilitation Team -- 8 Psychiatric Evaluation -- 9 Rehabilitation Setting -- 10 Rehabilitation Management Following Knee Replacement -- 11 Rehabilitation Management Following Hip Replacement -- 12 Rehabilitation Management Following Shoulder Replacement -- 13 Gait Analysis in the Rehabilitation Process.
Sommario/riassunto	Based on ten years of experience, this book provides a valuable tool for professionals in the field of bone tumors. Although rare, when diagnosed these tumors can cause anxiety and apprehension in patients, and it is necessary to find rapid solutions and medical rehabilitation protocols capable of dealing with these delicate cases. As such those working in this field need to constantly update their knowledge to ensure an appropriate approach to this particular

pathology. This book is a useful consultation tool for physiotherapists, orthopedic oncology surgeons, rehabilitation specialists and everyone who works with bone tumors on a regular basis.
