

1. Record Nr.	UNINA9910770250403321
Titolo	Breast Oncoplasty and Reconstruction : Principles and Practice / / edited by S.V.S. Deo
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2023
ISBN	981-9955-36-X
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (296 pages)
Disciplina	618.19
Soggetti	Surgery Cancer Cancers
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	1 Oncoplastic and Reconstructive Anatomy of Breast -- 2 Applied Aspects of Breast Imaging in Oncoplasty & Reconstruction -- 3 Principles of Planning Incisions for Breast Oncoplasty & Reconstruction -- 4 Oncologic Principles of Breast Conservation and Oncoplastic Breast Surgery -- 5 Margin Assessment in Breast Conserving Surgeries -- 6 GENERAL PRINCIPLES OF ONCOPLASTIC BREAST SURGERY -- 7 Patient Counselling for Breast Oncoplasty and Reconstruction -- 8 Applied aspects of systemic therapy in breast oncoplasty and reconstruction -- 9 "Perioperative Management of Breast Cancer Patients: Anaesthesiologist Perspectives" -- 10 Role of Breast Anthropometry in Oncoplasty & Reconstruction -- 11 Principles of Radiotherapy in Breast Oncoplasty & Reconstruction -- 12 PREOPERATIVE PREPARATION FOR GOOD ONCOPLASTIC BREAST SURGERY -- 13 Type 1 Oncoplasty in breast cancer -- 14 ROUND BLOCK ONCOPLASTY -- 15 General Principles of Therapeutic Mammoplasty -- 16 Therapeutic Mammoplasty Surgical Techniques -- 17 BATWING MASTOPEXY -- 18 Grisotti Mastopexy (B-Flap resection) -- 19 Volume Replacement- Mini Latissimus Dorsi Flap (LDMF) Flap for Partial Breast Reconstruction -- 20 Chest Wall Perforator Flaps for Partial Breast Reconstruction -- 21 Oncoplastic Reduction Mammoplasty and Contralateral Symmetrisation -- 22 Lipomodelling in Breast Surgery -- 23 Extreme Oncoplasty -- 24 Overview of Breast Reconstruction -- 25 SKIN SPARING MASTECTOMY

AND NIPPLE AREOLA SPARING MASTECTOMY -- 26 Dissection Guide for Latissimus Dorsi Breast Reconstruction -- 27 Autologous Reconstruction of Breast -- 28 Silicone Gel Breast Implants -- 29 Pre-Pectoral Implant Based Reconstruction -- 30 Dermal Flap Based Breast Reconstruction -- 31 Two Staged & Subpectoral Implant Reconstruction -- 32 Thoraco-Abdominal Flap for Large Post Mastectomy Defects in Locally Advanced Breast Cancer -- 33 ONCOPLASTICBREAST SURGERY- COMMON COMPLICATIONS AND MANAGEMENT -- 34 Management Approach to Recurrence following Oncoplastic Breast surgery -- 35 Follow up & Cosmetic outcomes in Breast Oncoplasty -- 36 Overview of curriculum & training for oncoplastic breast surgery -- 37 Workflow and Surgeons Check list for Oncoplastic Breast Surgery & Reconstruction.

Sommario/riassunto

The book covers the concepts, techniques and strategies of oncoplastic breast surgery and reconstruction for breast cancer patients. It includes contemporary surgical procedures with step-by-step illustrations, pre-operative and post-operative considerations, pearls and pitfalls shared from the personal experiences and surgical practices of the individual authors. Experienced authors with diverse backgrounds and an in-depth understanding of the domains are involved in curating the content of the book. This book mainly focuses on practical tips and surgical techniques to reach a broad spectrum of surgeons practicing breast surgery from low and middle-income countries. It provides both the scientific basis and practical tips from experienced surgeons in the field. Breast cancer is an emerging major public health problem in low and middle-income countries. While the surgical approach to breast cancer has witnessed a major shift from mastectomy to breast conservation, oncoplasty and reconstruction in western countries, the field of breast surgery is still evolving in low and middle-income countries. Barriers to adopting newer surgical approaches include socio-cultural factors, disease-related factors, resource-related factors and availability of expertise. This book fills the gap and helps surgeons in low and middle-income countries in adapting contemporary breast surgical techniques into their day-to-day practice. This book will be relevant for surgical oncologists, breast and endocrine surgeons, general surgeons practicing breast surgery and plastic surgeons. Additionally, it will serve as a resource book for residents and fellows from general surgery, surgical oncology, breast surgery and plastic surgery streams.
