1. Record Nr.   UNINA9910770257203321

   Autore   Mishra Goloknath

   Titolo   Deep Dive into Power Automate : Learn by Example / / by Goloknath
                      Mishra

   Pubbl/distr/stampa Berkeley, CA : , : Apress : , : Imprint : Apress, , 2023

   ISBN   1-4842-9732-6

   Edizione   [1st ed. 2023.]

   Descrizione fisica 1 online resource (486 pages)

   Disciplina   005.1

   Soggetti   Process control - Automation
                      Artificial intelligence - Industrial applications

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Note generali   Includes index.

   Nota di contenuto Chapter 1: Introduction-. Chapter 2: How to Kick-start Using Power
                      Automate -- Chapter 3: Cloud Flow. -- Chapter 4: Desktop Flow --
                      Chapter 5: Business Process Flow -- Chapter 6: Process Advisor --
                      Chapter 7: AI Builder -- Chapter 8: Licensing Considerations --
                      Chapter 9: Mini Project.

   Sommario/riassunto Understand the basics of flow and learn how to implement guidelines in
                       real-life scenarios, including Robotic Process Automation (RPA)
                       capabilities. This book covers the evolution of flow and how it is
                       transformed to a full-fledged RPA (such as Power Automate). The book
                       starts with an introduction to flow and its transformation to Process
                       Automation. You will learn how to create a Power Automate
                       environment and demonstrate different types of flows within it. Author
                       Goloknath Mishra takes you through various types of cloud flows and
                       their best practices. Desktop Flows (RPA) or Power Automate Desktop
                       (PAD) is discussed and the author teaches you its architecture,
                       installation steps, and how to manage, schedule, and share a desktop.
                       You will learn about Business Process Flow, Process Advisors, and AI
                       Builder. You also will go through licensing considerations in Power
                       Automate and AI Builder, and demonstrate all of your learnings through
                       a mini project. After reading the book, you will have gained expertise in
                       Power Automate and be able to implement its guidelines and solve
                       problems at your organization. What Will You Learn Know the
                       difference between Intelligent Process Automation (IPA) and Robotic

Process Automation (RPA) Understand the different types of flows in Power Automate Create various types of cloud flows, Desktop flows, Business Process flows, and AI Builder models Study common use cases and be aware of Power Automate best practices.
