Sommario/riassunto	We Are But Women sets the history of Irish women in the context of the broad sweep of Irish history, dealing even-handedly with the diverse traditions of unionism and nationalism. Through an examination of exemplar individuals and organisations, the book traces the growth of Irish awareness of such `women's issues' as emancipation, divorce and abortion. Above all, it acknowledges the key role played by women in finding a solution to the Irish Question.

2. Record Nr.	UNINA9910770277403321
Autore	Torres Rivera Edil

Nota di contenuto	History -- Colonization (Colonization tools and stages) -- Liberation and Decolonization (Critical thinking and consciousness; decolonization stages) -- Knowledge and Research (Indigenous Way of Knowing) -- Applications and Future Directions.
Sommario/riassunto	This book examines colonial structure as it applies to Latine populations and demonstrates how the remnants of that structure continue to affect this ethnic group. It reveals the racist underpinnings of the colonial perspective and its ability to undermine psychological stability. Many psychologists dealing with this population focus on individual deficits or disorders without the clarifying lens of social justice. Countering that, this book unravels the various strands of socio-political stressors and the disabling effects of lingering oppression. It brings important new insights for mental health

professionals as well as researchers, offering an identification of a native psychology that is uniquely tailored to this population. · Emphasizes the structural violence component · Fosters understanding of colonialism as an ongoing event · Provides a decolonization and decoloniality perspective that is not found in other publications.
