

1. Record Nr.	UNINA9910674042803321
Autore	Falco Pasquale De
Titolo	Challenges and New Trends in Power Electronic Devices Reliability
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2021
Descrizione fisica	1 online resource (207 p.)
Soggetti	Energy industries & utilities Technology: general issues
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>The rapid increase in new power electronic devices and converters for electric transportation and smart grid technologies requires a deepanalysis of their component performances, considering all of the different environmental scenarios, overload conditions, and high stressoperations. Therefore, evaluation of the reliability and availability of these devices becomes fundamental both from technical and economicalpoints of view. The rapid evolution of technologies and the high reliability level offered by these components have shown that estimating reliability through the traditional approaches is difficult, as historical failure data and/or past observed scenarios demonstrate. With the aim topropose new approaches for the evaluation of reliability, in this book, eleven innovative contributions are collected, all focusedon the reliability assessment of power electronic devices and related components.</p>

2. Record Nr.	UNINA9910773214103321
Autore	Bentham Jeremy <1748-1832>
Titolo	The Correspondence of Jeremy Bentham . Volume 3 January 1781 to October 1788
Pubbl/distr/stampa	UCL Press, 2017 London : , : UCL Press, , 2017

Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Originally published in 1971 by the Athlone Press. Series editor: J. H. Burns.
Nota di contenuto	Preface to the new edition of volume 3 -- List of letters in volume 3 -- Introduction to Volume 3 -- Missing letters of Jeremy Bentham referred to in the correspondence -- The correspondence January 1781-October 1788.
Sommario/riassunto	The first five volumes of the Correspondence of Jeremy Bentham

contain over 1,300 letters written both to and from Bentham over a 50-year period, beginning in 1752 (aged three) with his earliest surviving letter to his grandmother, and ending in 1797 with correspondence concerning his attempts to set up a national scheme for the provision of poor relief. Against the background of the debates on the American Revolution of 1776 and the French Revolution of 1789, to which he made significant contributions, Bentham worked first on producing a complete penal code, which involved him in detailed explorations of fundamental legal ideas, and then on his panopticon prison scheme. Despite developing a host of original and ground-breaking ideas, contained in a mass of manuscripts, he published little during these years, and remained, at the close of this period, a relatively obscure individual. Nevertheless, these volumes reveal how the foundations were laid for the remarkable rise of Benthamite utilitarianism in the early nineteenth century.
