Descrizione fisica	1 online resource (XXI, 190 p.)
Collana	Foundations in Language and Law [FLL] , , 2627-3950 ; ; 2
Disciplina	302.2/24
Soggetti	Hate speech Oral communication - Social aspects Speech acts (Linguistics)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Frontmatter -- Acknowledgements -- Preface -- Contents -- 1 Approaches to the meaning of hate speech -- 2 Hate Speech as a legal problem -- 3 The legal reasoning in hate speech court proceedings -- 4 Critical discourse analysis -- 5 Register and genre perspectives on hate speech -- 6 Speech act theory -- 7 (Im)politeness theory -- 8 Cognitive pragmatics -- References -- Index
Sommario/riassunto	Hate speech has been extensively studied by disciplines such as social psychology, sociology, history, politics and law. Some significant areas of study have been the origins of hate speech in past and modern societies around the world; the way hate speech paves the way for harmful social movements; the socially destructive force of propaganda; and the legal responses to hate speech. On reviewing the literature, one major weakness stands out: hate speech, a crime perpetrated primarily by malicious and damaging language use, has no significant study in the field of linguistics. Historically, pragmatic theories have tended to address language as cooperative action, geared to reciprocally informative polite understanding. As a result of this idealized view of language, negative types of discourse such as harassment, defamation, hate speech, etc. have been neglected as objects of linguistic study. Since they go against social, moral and legal norms, many linguists have wrongly depicted those acts of wrong

communication as unusual, anomalous or deviant when they are, in fact, usual and common in modern societies all over the world. The book analyses the challenges legal practitioners and linguists must meet when dealing with hate speech, especially with the advent of new technologies and social networks, and takes a linguistic perspective by targeting the knowledge the linguist can provide that makes harassment actionable.
