

1. Record Nr.	UNINA9910452379503321
Titolo	Cornea and refractive surgery [[electronic resource]] : proceedings of the 46th Annual Symposium of the New Orleans Academy of Ophthalmology, New Orleans, LA, USA, February 21-23, 1997 // edited Daniel A. Long
Pubbl/distr/stampa	The Hague ; ; New York, : Kugler Publications, c1998
ISBN	90-6299-784-8
Descrizione fisica	1 online resource (319 p.)
Altri autori (Persone)	LongDaniel A
Disciplina	617.7/55
Soggetti	Cornea - Surgery Eye - Refractive errors - Surgery Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	PREFACE; SPEAKERS; CORNEA; Corneal innervation and provision of anesthesia for ocular surgeries; Corneal healing problems; Phototherapeutic keratectomy update; Management of bacterial keratitis; Wound healing in the cornea: the dawn of a new era?; Questions and Answers; Recent advances in corneal transplantation; Effect of suture techniques on corneal transplant astigmatism and refractive errors; Panel discussion; Panel discussion Management of postoperative keratoplasty problems; Questions and Answers; Dry eye; Harbingers of death: peripheral corneal inflammatory disorders Panel discussion Pterygium - management of mild, moderate, and severe ones Panel discussion Corneal spots - cases, work-up, management; Questions and Answers; REFRACTIVE SURGERY; Current status of excimer laser photorefractive surgery for myopia; Radial keratotomy - best techniques today; Panel discussion Radial keratotomy and astigmatic keratotomy - what if things go wrong?; A comparison of current instrumentation for lamellar refractive surgery; Panel discussion How good is ALK? Should it be done?; Laser in situ keratomileusis Astigmatism surgery Non-incisional techniques and asymmetric astigmatism Astigmatism surgery - incisional procedures; Questions

and Answers; Photorefractive keratectomy for hyperopia and astigmatism; Clear lensectomy and intraocular lens implantation in high hyperopia; Panel discussion Management of overcorrections; A new optical effect of arcuate keratotomy - treatment of small or decentered excimer laser ablation zones; Refractive surgical correction using ICR technology; Panel discussion Decisions in RK, ALK, PRK, LASIK - which procedure for which patients? Intraocular lens implants for presbyopia Advances in computerized corneal topographic analysis? Where's the beef?; Cataract surgery incisions and their refractive implications; Index of authors

Sommario/riassunto

From Friday morning, February 21, 1997, through Sunday, February 23, at noon, members and guests of the New Orleans Academy of Ophthalmology heard presentations and discussions of the latest techniques and trends in the study of corneal diseases and surgery, including refractive surgery. This was the subject of the Forty-Sixth Annual Symposium of the Academy. The speakers comprised a group of eight clinician-surgeons with a wealth of experience and a well-respected talent for innovation in their areas of expertise. From trends in bacterial keratitis to ocular surface disease and healing to t

Titolo	Pathways for Irregular Forces in Southeast Asia : Mitigating Violence with Non-State Armed Groups // edited by Atsushi Yasutomi, Rosalie Arcala Hall, Saya Kiba
Pubbl/distr/stampa	Abingdon, Oxon : , : Taylor & Francis (Unlimited), , 2022
ISBN	1-000-54594-6
Descrizione fisica	1 online resource (xiii, 199 pages) : illustrations (black and white)
Collana	Routledge contemporary Southeast Asia series
Disciplina	355.033059
Soggetti	Militia Paramilitary forces
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	An exploration of the roles that pro- and anti-government militias, private armed groups, vigilantes, and gangs play in local communities in the new democracies of Southeast Asia. Scholars have typically characterized irregular forces as spoilers and infiltrators in post-conflict peacebuilding processes. The contributors to this book challenge this conventional understanding of irregular forces in Southeast Asia, demonstrating that they often attract solid support from civilians and can be major contributors to the building of local security - a process by which local residents, in the absence of an effective police force, develop, partner or are at least included in the management of community crimes and other violence. They analyze irregular forces' dealings with political actors at the community level, explaining why and how forces are incorporated in and collaborate with legitimate institutions without using violence against them. Offering a new approach to dealing with irregular forces in Southeast Asia, contributors explore new theoretical frameworks that are better suited for evaluating irregular forces' relationship to different security providers and the political environments in the region. Specifically, they examine case studies from Indonesia, Timor-Leste, the Philippines, and Thailand. A valuable resource for researchers, students and

practitioners in the areas of conflict resolution, peacebuilding, and security governance, especially those with a focus on Southeast Asia. This book will also be of great interest to scholars of the sociology and anthropology of the region.
