Sommario/riassunto

Cet ouvrage propose une réflexion sur la place de l'Antiquité dans les arts, analysant les lectures, les réécritures, les projections dont la littérature et la mythologie gréco-romaines font l'objet ; les travaux présentés intéressent différentes formes d'art : théâtre, opéra, peinture ou encore cinéma ; les exposés, émanant de la recherche universitaire ou issus d'expériences pédagogiques, se complètent et se répondent en un dialogue fécond. Ces contributions sont le fruit des rencontres organisées à Besançon dans le cadre des Journées d'automne de la Coordination nationale des associations régionales d'enseignants de langues anciennes sur le thème « Arts et Antiquité ». Elles s'inscrivent dans le contexte de l'introduction de l'histoire des arts dans les programmes scolaires.

Sommario/riassunto	Lottaz and Ottosson explore the intricate relationship between neutral Sweden and Imperial Japan during the latter's 15 years of warfare in Asia and in the Pacific. While Sweden's relationship with European Axis powers took place under the premise of existential security concerns, the case of Japan was altogether different. Japan never was a threat to Sweden, militarily or economically. Nevertheless, Stockholm maintained a close relationship with Tokyo until Japan's surrender in 1945. This book explores the reasons for that and therefore provides a study on

the rationale and the value of neutrality in the Long Second World War. Sweden, Japan, and the Long Second World War is a valuable resource for scholars of the Second World War and of the history of neutrality.
