

1. Record Nr.	UNINA9910774843303321
Titolo	Sixth International Symposium : monitoring of Mediterranean coastal areas : problems and measurement techniques, Livorno (Italy), September 28-29, 2016 // edited by Claudio Conese
Pubbl/distr/stampa	Firenze : , : Firenze University Press, , 2017
Descrizione fisica	1 online resource (420 pages) : illustrations (colour); digital, PDF file(s)
Collana	Proceedings e report ; ; 112
Disciplina	333.95
Soggetti	Biodiversity Biodiversity - Mediterranean Region Coastal ecology - Mediterranean Coast Mediterranean Region Environmental conditions Congresses
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	The Sixth International Symposium Monitoring of Mediterranean Coastal Areas. Problems and Measurement Techniques (Livorno, Italy 28-29 September 2016) was organized by the CNR-IBIMET in collaboration with University Departments, the City of Livorno, the LEM Foundation, the Livorno Port Authority and CeSIA-Accademia dei Georgofili, with the patronage by Accademia Nazionale dei Lincei, the Tuscany Region and the Province of Livorno. The Symposium, that every two years addresses to Mediterranean scholars, was characterized by discourse of topics related to Mediterranean coastal areas and by the search for technical and instrumental solutions to problems related to: energy production in the coastal area, morphology and evolution of coastlines, flora and fauna of the littoral system, management and integrated coastal protection, coastline geography, human influence on coastal landscape.
