Sommario/riassunto	The death of Admiral Nelson on his flagship, the Victory, at the Battle of Trafalgar in 1805 is the basis of a well-known story. This book focuses on William Beatty, the surgeon who attended Nelson in his last hours and was later to publicize the deathbed scene. It traces his life and career as a leading naval surgeon during the Napoleonic Wars and afterwards. - ;In the lead-up to the bicentenary of Trafalgar a number of important new studies have been published about the life of Nelson and his defeat of the Combined Fleet in 1805. Despite the significant role played by the health and fitness
