Sommario/riassunto	Development Geography is an informative and vibrant introductory level text, with a wealth of contrasting case-studies and illustrations. Written to stimulate critical thought and discussion about development, it does not assume any clear-cut distinction between 'developed' and 'developing' parts of the world. Case-studies highlight the problems and possible solutions at local, national and international scales. These include:* food production in Senegal* Disney in China* Hurricane Mitch in Honduras* corruption in Bulgaria* further studies from Russia, Bangladesh a
