

1. Record Nr.	UNINA9910777386103321
Autore	Strawson P. F
Titolo	The bounds of sense : an essay on Kant's Critique of pure reason // P. F. Strawson
Pubbl/distr/stampa	London, : Routledge, 1995
ISBN	1-280-11038-4 0-203-01086-8
Descrizione fisica	1 online resource (198 p.)
Collana	University paperbacks ; ; 572
Disciplina	121
Soggetti	Knowledge, Theory of Causation Reason Metaphysics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"First published in 1966 by Methuen & Co. Ltd." Includes index.
Nota di contenuto	Book Cover; Title; Contents; PREFACE; Two faces of the Critique; The Metaphysics of Experience; Transcendent Metaphysics; The Metaphysics of Transcendental Idealism; Conclusion; Space and time as forms of intuition: the austere interpretation; Space and time as forms of intuition: the transcendental idealist interpretation; Form and matter: relations and sensation; The unity of space and time; A priori and innate; Concluding remarks; Programme for the Analytic; Formal Logic and Transcendental Logic; Sketch of an over-hasty argument; Why a transcendental deduction?; Objectivity and Unity Synthesis, self-consciousness, and Nature as made by the mind Unity and Objectivity; Transcendental subjectivity and the limitation of the categories to experience; Concluding remark; An ~historical~ view of the Principles considered and rejected; Objective and subjective time-relations; Permanence: the Refutation of Idealism and the first Analogy; Causality: the arguments of the second and third Analogies; Causality: another attempt; An element of deceptive logic; Veridical and non-veridical perceptions; Why only one objective world?; THE LOGIC OF ILLUSION

The exposure of the illusion: a reconstruction
Hume and Kant on the self; The complications of transcendental idealism; Arguments and Objections; A problem in any case?; A re-presenting of the alternatives; Kant's solution: its general form; and three interpretations; A fourth interpretation of the solution?; The cosmological questions re-considered; The dynamical antinomies: the conventional critical solution passed over; The dynamical antinomies: an alternative solution?; Empirically unconditioned existence: embarrassment about substance

The transition from ~cosmological~ to ~transcendent~ ideas
The Ideal of Pure Reason; The illusions of philosophical theology; Final observations; The doctrines; Some questions; The thing-in-itself and appearances in inner sense; The thing-in-itself and appearances in outer sense; Transcendental idealism and empirical realism; Formal concepts and significance: experience and reality; Conclusion: the Structure of Experience; The theory and its critics; Physical and phenomenal geometry; Objections and qualifications

Sommario/riassunto

The Bounds of Sense is one of the most influential books ever written about Kant's philosophy, and is one of the key philosophical works of the late Twentieth century. Although it is probably best known for its criticism of Kant's transcendental idealism, it is also famous for the highly original manner in which Strawson defended and developed some of Kant's fundamental insights into the nature of subjectivity, experience and knowledge. The book had a profound effect on the interpretation of Kant's philosophy when it was first published in 1966 and continues to influence discussion
