| Sommario/riassunto      | Is the closet just a metaphor? Closet Space provides a highly original account of the spatial metaphor of "the closet", and is the first geography text to focus on this important issue. Using a variety of research techniques and materials, the book explores the closet through texts including: <ul style="list-style-type: none"> <li>* the oral histories of gay men in the UK and US</li> <li>* the sexualised landscape of a New Zealand city</li> <li>* the national census of Britain and the US</li> <li>* international travel guides and travelogues</li> </ul> and refers to the work of Butler, Lefebvre and Foucault. |
