emerging East Asia

15 Which exchange rate regime for Asia? 16 Options for currency arrangements and their policy implications; 17 Sequencing monetary and trade integration; Index

Sommario/riassunto

There is a deepening debate in East Asia about the prospects for common exchange rate arrangements, even including the formation of a common currency in the longer term. This raises a complex set of issues and this volume provides a detailed yet comprehensive examination of key issues in the debate. It looks, for example, at the nature and extent of linkages in East Asia, in terms of trade and foreign investment, finance, labour, and consumption, investment and output. It examines how the exchange rate affects various aspects of economies. And it critically analyzes various proposals for curr
