Sommario/riassunto	This book explores the importance of effective multi-agency and multi-disciplinary partnership work for the mental health of children

and young people in care and adoption. It takes an overall systemic perspective, but the co-authors contribute different theoretical approaches. It focuses on practice, showing how practitioners can draw on their varied theoretical approaches to enhance the way they work together and in partnership with carers and with professionals from other agencies. The book provides a context that looks at the needs of children and young people in the care and adoption systems, the overall importance for their mental health of joined up 'corporate parenting', and national and local approaches to this. It then moves to focus on practical ways of working therapeutically in partnership with others who contribute diverse skills and perspectives, using specific case examples. Additional chapters look at collaborative ways of working with key carers to enhance their therapeutic role. Finally, some of the main elements of partnership collaboration are explored, as well as the challenges of work across agencies and disciplines.

Sommario/riassunto

The films of Swedish director Ingmar Bergman are renowned for their largely spare and stark aesthetic, an existential framework, and plots driven by a fascination with death and the moral torments of the human soul. Birgitta Steene offers here in *Ingmar Bergman: A Reference Guide* an essential and unparalleled resource on the life and work of Bergman. Plumbing the depths of these trademark Bergman themes, Steene traces as well the indelible mark he left on world cinema through his other cinematographic work and writings. Over the decades, Bergman's stature and image have evolved in fascinating ways - an iconoclast of the 1950s, a bourgeois traditionalist of the 1960s, and an icon in the 1980s. This exhaustive compendium considers each phase of his career, exploring his deep and vast oeuvre in all its controversy and complexity, and analyzes his intriguing and unique motifs such as his efforts to expose dead conventions and his portrayals of Woman as the archetype of humanity. As well as providing a detailed account of Bergman's life and chronicling his career as a filmmaker and theater director, including his work for television, Steene offers transcripts of some of the numerous interviews and conversations she conducted with Bergman. Writings by and about Bergman and a detailed chronological survey of his film and theatrical work completes this eminently readable and thoroughly researched volume. A wide-ranging and groundbreaking work of film history, *Ingmar Bergman* is the definitive reference for scholars of the Scandinavian master.
