Nota di contenuto	Contents; Foreword; Preface; Acknowledgments; Contributors; Abbreviations and Acronyms; 1 The New Vision of Local Governance and the Evolving Roles of Local Governments; TABLES; BOXES; FIGURES; Africa; Asia; Europe and Central Asia; Latin America and the Caribbean; Index
Sommario/riassunto	This book provides a new institutional economics perspective on alternative models of local governance, offering a comprehensive view of local government organization and finance in the developing world. The experiences of ten developing/transition economies are reviewed to draw lessons of general interest in strengthening responsive, responsible, and accountable local governance. The book is written in simple user friendly language to facilitate a wider readership by policy makers and practitioners in addition to students and scholars of public finance, economics and politics.

Hogenson -- chapter 3 Developmental aspects of analytical psychology: new perspectives from cognitive neuroscience and attachment theory -- Jung's model of the mind / Jean Knox -- chapter 4 Understanding consciousness through the theory of psychological types / John Beebe -- chapter 5 Analytic methods revisited / Joseph Cambray -- chapter 6 Transference and countertransference: contemporary perspectives / Jan Wiener -- chapter 7 The emerging theory of cultural complexes / Thomas Singer -- chapter 8 Spiritual and religious aspects of modern analysis / Murray Stein -- chapter 9 Synchronicity as emergence / Joseph Cambray -- chapter 10 The ethical attitude in analytic training and practice -- Archetypal and developmental perspectives and implications for continuing professional development / Hester McFarland Solomon -- chapter 11 Endnotes -- Whence and whither? / Beverley Zabriskie.
Sommario/riassunto	The Jungian approach to analysis and psychotherapy has been

undergoing an extensive reconsideration during the past decade. Analytical Psychology calls special attention to the areas that have been most impacted: the core concepts and practices of the Jungian tradition, along with relevant intellectual and historical background. Internationally renowned authors drawing on the forefront of advance in neuroscience, evolution, psychoanalysis, and philosophical and historical studies, provide an overview of the most important aspects of these developments. Beginning with a chronicle of the history of the Jungian movement, areas covered include: * a background to the notion of 'archetype' * human development from a Jungian perspective * the creative extension of Jung's theory of psychological types * re-evaluation of traditional Jungian methods of treatment in the light of contemporary scientific findings * Jungian development of transference and countertransference * a new formulation of synchronicity. Analytical Psychology presents a unique opportunity to witness a school of psychotherapy going through a renaissance. Drawing on original insights from its founder, C.G. Jung, this book helps focus and shape the current state of analytical psychology and point to areas for future exploration.
