

1. Record Nr.	UNINA9910777636203321
Autore	Becker Richard C
Titolo	Fibrinolytic and antithrombotic therapy [[electronic resource]] : theory, practice, and management // Richard C. Becker, Frederick A. Spencer
Pubbl/distr/stampa	Oxford ; ; New York, : Oxford University Press, 2006
ISBN	0-19-756195-0 1-280-83783-7 0-19-974906-X 1-4294-0273-3
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (421 p.)
Collana	Oxford scholarship online
Altri autori (Persone)	SpencerFredrick A., MD.
Disciplina	616.1/3506
Soggetti	Thrombolytic therapy Fibrinolytic agents Thrombosis - Treatment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Previously issued in print: 2006.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Historical perspectives in hemostasis, coagulation and fibrinolysis -- Vascular biology, thromboresistance and inflammation -- Atherosclerosis and arterial thrombosis -- Venous thromboembolism -- Cardiac chamber, aortic and valvular thromboembolism -- Fibrinolytic agents -- Aspirin -- Clopidogrel -- Platelet Glycoprotein IIb/IIIa receptor antagonists -- Aggrenox and cilostazol -- Novel platelet antagonists -- Combination pharmacotherapy -- Facilitated percutaneous coronary intervention -- Thrombin-directed therapy -- Factor Xa inhibitors -- Direct thrombin inhibitors -- Novel anticoagulants -- Acute coronary syndromes -- Peripheral vascular disease and stroke -- Valvular heart disease and atrial fibrillation -- Plaque-stabilizing therapies -- Venous thromboembolism prophylaxis -- Venous thromboembolism treatment -- Fundamentals and patient evaluation -- Platelet antagonists -- Anticoagulants -- Anticoagulation clinics and self-testing -- Platelet antagonists -- Anticoagulants -- Fibrinolytic agents.
Sommario/riassunto	Thrombotic disorders of the circulatory system represent the leading cause of morbidity, mortality, and health care expenditure in the United

States. The Second Edition of Fibrinolytic and Antithrombotic Therapy provides a practical, evidence-based approach to the management of thrombotic disorders for all clinicians involved in the care of patients with these disorders. It provides not only vital conceptual information on fibrinolytic and antithrombotic therapy, but also the means to apply it to everyday decision making and patient care. Focusing on management guidelines and critical pathways, the text stresses practicality and usability. It will be a valuable resource for the wide range of clinicians involved in the care of patients with these disorders.
