

1. Record Nr.	UNINA9910777636303321
Autore	Allen Edward
Titolo	How buildings work [[electronic resource] ] : the natural order of architecture // Edward Allen
Pubbl/distr/stampa	Oxford ; ; New York, : Oxford University Press, 2005
ISBN	0-19-771377-7 0-19-028990-2 1-280-83844-2 0-19-803666-3 1-4294-0267-9
Edizione	[3rd ed.]
Descrizione fisica	1 online resource (285 p.)
Disciplina	721
Soggetti	Buildings - Environmental engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Prologue: Sustainable Building; WHAT BUILDINGS DO; HOW BUILDINGS WORK; Glossary; Index
Sommario/riassunto	Illustrated with many line drawings, this guide provides information on a building's function: how it stands up, keeps its occupants safe and comfortable, gets built, grows old, and dies - and why some buildings do this so much better than others. It is intended for architects, superintendents, and students of architecture and construction.
