Sommario/riassunto	One of the great challenges of social cognitive science is to understand how we can enter, or ""read,"" the minds of others--that is, infer complex mental states such as beliefs, desires, intentions, and emotions. This book brings together leading scholars from psychology, neuroscience, and philosophy to present cutting-edge theories and empirical findings on this essential topic. Written in an engaging, accessible style, the volume examines the cognitive processes underlying mindreading; how interpersonal understanding and empathy develop across the lifespan; connections to language
