

1. Record Nr.	UNINA9910777760503321
Autore	Atkinson Kerry
Titolo	The BMT data book // Reinhold Munker, Hillard M. Lazarus, Kerry Atkinson [[electronic resource]]
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2009
ISBN	1-107-19285-4 0-511-51773-4 0-511-51511-1 0-511-51419-0 0-511-57552-1 0-511-51639-8
Edizione	[2nd edition.]
Descrizione fisica	1 online resource (xvi, 526 pages) : digital, PDF file(s)
Disciplina	617.4/40592
Soggetti	Bone marrow - Transplantation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Half-title; Title; Copyright; Contents; Contributors; Foreword; Preface; Acknowledgments; Section 1 Basic science; Section 2 Hematologic malignancies; Section 3 Solid tumors; Section 4 Nonmalignant disorders; Section 5 Practical aspects and procedures; Section 6 Complications; Section 7 The BMT/SCT pharmacopoeia; Section 8 HLA-testing and laboratorymedicine; Appendix; Index
Sommario/riassunto	The BMT Data Book is an essential guide to the data, outcome studies and complex decision-making processes involved in blood and marrow stem cell transplantation. Organized according to types of diseases and procedures, it contains more than hundred tables, figures and algorithms that reflect up-to-date research and give guidance on the choices between stem cell versus bone marrow transplantation, autologous versus allogeneic transplantation, and conventional versus experimental treatments. This new edition summarizes research of the last 5 years and gives mature data for all established indications, such as acute myeloid leukemia, myelodysplastic syndromes, Hodgkin's and Non-Hodgkin's lymphomas. In addition, controversies and new indications - like renal cell cancer and autoimmune disorders - are

discussed plus new drugs and therapies, new stem cell sources (cord blood), new transplant protocols (reduced-intensity conditioning), and a guide to electronic databases.
