Guideline Development Group judgements on new recommendations -- _Hlk111450823 -- _Hlk108170386 -- _Hlk106181723.

Sommario/riassunto

Hospitales seguros ante inundaciones expone los efectos mas comunes de las inundaciones en los servicios de salud y brinda recomendaciones tecnicas para aplicar en la prevencion, la mitigacion, la rehabilitacion y la reconstruccion de la infraestructura de salud vulnerable a inundaciones. Estas intervenciones permitiran reducir el impacto, brindar una respuesta y atencion oportuna y eficaz, y facilitar la continuidad en la prestacion de los servicios de salud, justo cuando la demanda se incrementa a consecuencia del evento.
