Sandoval (2001), title VI, and the court's refusal to consider the validity of English-only laws or rules.
Sommario/riassunto	"To achieve justice and equal protection under the law, Latinos have turned to the U.S. court system to assert and defend their rights. Some of these cases have reached the United States Supreme Court, whose rulings over more than a century have both expanded and restricted the legal rights of Latinos, creating a complex terrain of power relations

between the U.S. government and the country's now-largest ethnic minority. To map this legal landscape, Latinos and American Law examines fourteen landmark Supreme Court cases that have significantly affected Latino rights, from *Botiller v. Dominguez* in 1889 to *Alexander v. Sandoval* in 2001."-from Amazon.com
