Sommario/riassunto	Making Finance Work for Africa takes a panoramic view of Africa's financial systems, both at the large scale ("finance for growth") and the small scale ("finance for all"). Things are changing for the better in African finance. Credit growth is underway after a long pause, solid new intermediaries are entering the marketplace, and the reach of microfinance is growing steadily. Finance can be a leading sector transforming African economies - by opening up business opportunities to a wider clientele and by channeling larger resources more effectively. By providing a key alternative to govern
