Sommario/riassunto	China and India's new-found interest in trade and investment with Africa - home to 300 million of the globe's poorest people and the world's most formidable development challenge - presents a significant

opportunity for growth and integration of the Sub-Saharan continent into the global economy. Africa's Silk Road finds that China and India's South-South commerce with Africa is about far more than natural resources, opening the way for Africa to become a processor of commodities and a competitive supplier of goods and services to these countries - a major departure from its long established re
