Sommario/riassunto

Caring for a loved one with an eating disorder is a difficult task; carers often find it hard to cope, and this can contribute to the maintenance of the disorder. The Clinician's Guide to Collaborative Caring in Eating Disorders shows how active collaboration between professional and non-professional carers can maximise the quality of life for both the sufferer and all other family members. The book provides straightforward guidance for clinicians who work with families and carers. It suggests ways of ensuring that interpersonal elements that can maintain eating disorder
