Sommario/riassunto	In this volume, rhetoricians, literacy scholars, and humanists have

come together to examine the complex discursive constructions of sustainability. Touching on topics including conservation efforts in specific locales; social and political constructions of rhetorical place and space; community literacy; historical and archival analysis of institutional politics, policies, and practices concerning the environment and economic growth and development; town planning and zoning issues; and rhetorics of environmental remediation and sustainability, this collection of essays provides rhetoricians
