

1. Record Nr.	UNINA9910778016503321
Autore	Waldbauer Gilbert
Titolo	A walk around the pond [[electronic resource]] : insects in and over the water / / Gilbert Waldbauer
Pubbl/distr/stampa	Cambridge, MA, : Harvard University Press, c2006
ISBN	0-674-26817-2 0-674-04477-0
Descrizione fisica	1 online resource (312 p.) : 12 halftones
Disciplina	595.7
Soggetti	Insects Pond animals
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. 249-270) and index.
Nota di contenuto	Frontmatter -- Contents -- A First Look -- Who's Who in the Water -- Where They Live -- The Breath of Life -- Finding Food and Eating -- Going Places -- The Next Generation -- On Being Eaten -- How Not to Be Eaten -- Coping with the Climate -- Our Friends and Enemies -- Selected Readings -- Acknowledgments -- Index
Sommario/riassunto	In his hallmark companionable style, Gilbert Waldbauer introduces us to the aquatic insects that have colonized ponds, lakes, streams, and rivers, especially those in North America. Along the way we learn about the diverse forms these arthropods take, as well as their remarkable modes of life. While learning about the evolution, natural history, and ecology of these insects, readers also discover more than a little about the scientists who study them.
