

1. Record Nr.	UNINA9910778134203321
Titolo	The fruits of empirical linguistics . Volume 2 Product [[electronic resource] /] / edited by Sam Featherston, Susanne Winkler
Pubbl/distr/stampa	New York, NY, : Mouton de Gruyter, 2009
ISBN	1-282-18803-8 9786612188039 3-11-021615-9
Descrizione fisica	1 online resource (272 p.)
Collana	Studies in Generative Grammar [SGG] ; ; 102
Altri autori (Persone)	FeatherstonSam WinklerSusanne <1960->
Disciplina	410.285
Soggetti	Computational linguistics - Methodology Discourse analysis - Data processing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- Table of contents -- German verb-first conditionals as unintegrated clauses:A case study in converging synchronic and diachronic evidence -- Optionality in verb cluster formation -- Clitic placement in Serbian: Corpus and experimental evidence -- Explorations in ellipsis: The grammar and processing of silence -- Comparatives and types of ponne in Old English: Towards an integrated analysis of the data types in comparatives derivations -- Context effects in the formation of adjectival resultatives -- New data on an old issue: Subject/object asymmetries in long extractions in German -- Parallelism and information structure: Across-the-board extraction from coordinate ellipsis -- An empirical perspective on positive polarity items in German -- First-mention definites:More than exceptional cases -- Partial agreement in German:A processing issue? -- Backmatter
Sommario/riassunto	The second volume of the two-volume set The Fruits of Empirical Linguistics focuses on the linguistic outcomes of empirical linguistics. The contributions present some of the insights that linguists can gain by applying the new methods: progress within language study is accelerated by the new evidence since language systems are more

precisely captured. Readers will enjoy the fresh perspective on linguistic questions made possible by the evidence-based approach.
