Sommario/riassunto

This book constitutes the proceedings of the 36th International Conference on Application and Theory of Petri Nets and Concurrency, PETRI NETS 2015, held in Brussels, Belgium, in June 2015. The 12 regular papers and 2 tool papers presented in this volume were carefully reviewed and selected from 34 submissions. In addition the book contains 3 invited talks in full paper length. The papers cover various topics in the field of Petri nets and related models of concurrency.

Nota di contenuto	Anti-Americanism as a European lingua franca -- European anti-Americanism : a brief historical overview -- The perceived "Americanization" of all aspects of West European lives : a discourse of irritation and condescension -- The massive waning of America's image in the eyes of the world and in Western Europe's -- Twin brothers : European anti-Semitism and anti-Americanism -- Anti-Americanism : a necessary and welcomed spark to jump-start a European identity?
Sommario/riassunto	No survey can capture the breadth and depth of the anti-Americanism that has swept Europe in recent years. From ultraconservative Bavarian grandmothers to thirty-year-old socialist activists in Greece, from globalization opponents to corporate executives--Europeans are joining in an ever louder chorus of disdain for America. For the first time, anti-Americanism has become a European lingua franca. In this sweeping and provocative look at the history of European aversion to America, Andrei Markovits argues that understanding the ubiquity of anti-Americanism since September 11, 2001, requires an appreciation of such sentiments among European elites going back at least to July 4,

1776. While George W. Bush's policies have catapulted anti-Americanism into overdrive, particularly in Western Europe, Markovits argues that this loathing has long been driven not by what America does, but by what it is. Focusing on seven Western European countries big and small, he shows how antipathies toward things American embrace aspects of everyday life--such as sports, language, work, education, media, health, and law--that remain far from the purview of the Bush administration's policies. Aggravating Europeans' antipathies toward America is their alleged helplessness in the face of an Americanization that they view as inexorably befalling them. More troubling, Markovits argues, is that this anti-Americanism has cultivated a new strain of anti-Semitism. Above all, he shows that while Europeans are far apart in terms of their everyday lives and shared experiences, their not being American provides them with a powerful common identity--one that elites have already begun to harness in their quest to construct a unified Europe to rival America.
