Sommario/riassunto

This book brings together analysis and insights from high-level Chinese policy-makers and prominent international scholars in addressing the key challenges China is facing in maintaining rapid growth and achieving the Government's stated goal of creating a harmonious society. It analyzes such key policy issues as: public finance and the changing role of the state; fiscal reform and revenue and expenditure assignments; inter-governmental relations and fiscal transfers; and financing and delivery of basic public goods such as compulsory education, innovation, public health, and social protection
