Sommario/riassunto	The faith and development nexus is both a promising new focus for secular development agencies and a historic reality: for centuries, world faiths and individuals inspired by their faith have played many roles in social change and social welfare. Secular development agencies have largely operated in parallel to the world of faith-motivated development. The World Bank began in the late 1990's to explore ways in which faith and development are connected. The issue was not and is not about religion, but about the recognition that some of the best experts on development are faith leaders living

Sommario/riassunto	Herbert Marcuse, Erich Fromm, Max Horkheimer, Franz Neumann, Theodor Adorno, Leo Lowenthal-the impact of the Frankfurt School on the sociological, political, and cultural thought of the twentieth century has been profound. The Dialectical Imagination is a major history of this monumental cultural and intellectual enterprise during its early years in Germany and in the United States. Martin Jay has provided a substantial new preface for this edition, in which he reflects on the

continuing relevance of the work of the Frankfurt School.
