|-------------------------|---|
| 1. Record Nr. | UNINA9910778301403321 |
| Autore | Rogers A. J. |
| Titolo | Polarization in optical fibers // Alan Rogers |
| Pubbl/distr/stampa | Norwood, Massachusetts : , : Artech House, , ©2008 [Piscataway, New Jersey] : , : IEEE Xplore, , [2008] |
| ISBN | 1-59693-349-6 |
| Descrizione fisica | 1 online resource (289 p.) |
| Collana | Artech House applied photonics series |
| Disciplina | 621.38275 |
| Soggetti | Optical fibers Polarization (Electricity) |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | The wave theory of light -- Optical waveguiding -- Elements of polarization optics -- Polarization effects in optical fibers -- Practical applications of polarization effects in optical fiber communications -- Polarimetric optical-fiber sensing -- Applications of nonlinear polarization effects in optical fibers. |
| Sommario/riassunto | "Here is the first resource to provide a state-of-the-art understanding of polarization behavior in optical fibers and the techniques needed to mitigate its impact on today's telecommunication and measurement-sensing systems."--Jacket. |
