

1. Record Nr.	UNINA9910778309403321
Titolo	Conservation science : heritage materials // editors, Eric May, Mark Jones
Pubbl/distr/stampa	Cambridge, : Royal Society of Chemistry, 2006
ISBN	1-84755-762-7
Descrizione fisica	1 online resource (391 pages)
Altri autori (Persone)	MayEric JonesMark <1951->
Disciplina	069.53
Soggetti	Museum conservation methods Art objects - Conservation and restoration Antiques - Conservation and restoration Historic preservation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Conservation of artefacts and heritage materials is an increasingly popular and fascinating area, spanning both historical and scientific disciplines. Materials come in many forms ranging from sunken ships to tapestries, from buildings to books. With this wide range of matrices and materials to analyse and preserve, an interdisciplinary approach is needed drawing upon skills from many areas of knowledge. Conservation Science: Heritage Materials links these fields of research together forming a comprehensive text book that discusses analytical aspects, wall paintings, organic and inorganic mate
