Sommario/riassunto	While Tanzania has been at the forefront of creating a positive legal framework and political context for gender equality, certain legal, regulatory, and administrative barriers still hinder women's full participation in private sector development. This report analyzes these barriers and makes recommendations for needed change, to ensure

women's full contribution to private sector development and economic growth in Tanzania. Building on intensive stakeholder consultations and the findings of numerous studies, notably the MKURABITA diagnostic and the 2003/4 Investment Climate Assessments for Ta
