## Sommario/riassunto

Nigeria has a clear vision of where it wants to be. The country's vision 2020 expresses a bold desire to be among the top twenty economies by the year 2020. The economy has posted impressive growth figures since 2003 driven by higher oil prices and a series of home-grown, economic reforms. The country is now firmly on the road to middle-income status. But what else do government and the private sector need to do to create the jobs and growth that will underpin the national development strategy? What are the challenges that Nigeria's businesses face today? What can government do to promote jo
