Altri autori (Persone)	BerkeAndreas
Disciplina	617.7 617.7/061 617.7061
Soggetti	Ophthalmology - History Vision - History
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Introduction; History of Prehistoric Times; Introduction to Ancient History; Ancient Mesopotamia; Ancient India; Ancient Egypt; Ancient China; Ancient Greece; Ancient Rome; Early Medieval Ages; Medieval Islamic Medicine; The Renaissance; Early Modern Times; Western Modern Times; References; Glossary; Acknowledgements
Sommario/riassunto	The history and development of vision and ocular medicine over time always occurred within a framework of many other cultural events. Thus, it is important to understand these factors before one can appreciate how vision and ocular medicine were viewed and practiced at a particular time and in a particular region, and how both slowly progressed over the centuries. Ocular medicine is, and always has been, a part of medicine, and is influenced by its theoretical and practical principles, as well as its diagnostic and therapeutic practices. If the ancient people thought that diseases were caused b
