   Sommario/riassunto Volume I of the International Criminal Law Practitioner Library series
                      focuses on the law of individual criminal responsibility applied in
                      international criminal law, providing a thorough review of the forms of
                      criminal responsibility. The authors present a critical analysis of the
                      elements of individual criminal responsibility as set out in the statutory
                      instruments of the international and hybrid criminal courts and
                      tribunals and their jurisprudence. All elements are discussed,
                      demystifying and untangling some of the confusion in the
                      jurisprudence and literature on the forms of responsibility. The

jurisprudence of the ICTY and the ICTR is the main focus of the book. Every trial and appeal judgement, as well as relevant interlocutory jurisprudence, up to 1 December 2006, has been surveyed, as has the relevant jurisprudence of other tribunals and the provisions in the legal instruments of the ICC, making this a highly relevant work.
