

1. Record Nr.	UNINA9910778512003321
Titolo	Study guide for the professional licensure of mining and mineral processing engineers [[electronic resource] ] : principles and practice of engineering (P.E.) examination
Pubbl/distr/stampa	Littleton, : Society for Mining Metallurgy and Exploration, 2008
ISBN	0-87335-299-8
Edizione	[7th ed.]
Descrizione fisica	1 online resource (113 p.)
Disciplina	622.05
Soggetti	Mining schools and education
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Cover; Title; Copyright; Contents; Preface; Introduction; CHAPTER 1: Developing a Professional Career; CHAPTER 3: Professional Engineering Licensure; CHAPTER 4: Six Steps to Professional Engineer Licensure; CHAPTER 5: The Licensed Professional Engineer; CHAPTER 6: List of Licensure and Registration Boards; CHAPTER 7: NCEES Model Rules of Professional Conduct; CHAPTER 8: NCEES Publications; CHAPTER 9: The Fundamentals of Engineering Examination; CHAPTER 10: The Professional Engineering Examination; CHAPTER 11: Preparing, Taking, and Grading the Exam CHAPTER 12: Sample Professional Engineer Examination
Sommario/riassunto	This handy workbook lets you know what to expect and provides an opportunity to practice your test-taking skills. The text covers the history of professional licensure and the Mining and Minerals Processing exam, explains what licensing can do for you, outlines the engineering licensure process, highlights the six steps to licensure, covers the application process, includes Model Rules of Professional Conduct, lists NCEES publications, and describes the testing process. Perhaps the most useful element is a sample test, complete with questions and answers, that is similar in content and format
