Sommario/riassunto	Showcasing exemplary research programs, this book explores how the latest theories and findings on cognitive development can be used to improve classroom instruction. The focus is on how children acquire knowledge about the processes involved in learning-such as remembering, thinking, and problem solving-as well as strategies for mastering new information. The contributors are leading experts who illustrate ways teachers can support the development of metacognition and goal-directed strategy use throughout the school years and in different academic domains. Teach

3. Record Nr.	UNINA9910145479303321
