Sommario/riassunto	Hilary Janks addresses key questions about literacy and power in this landmark text that is both engaging and accessible. Her central argument is that competing orientations to critical literacy education ? domination (power), access, diversity, design ? foreground one over the other, but are crucially interdependent and need to work together to create possibilities for redesign and social action that serve a social justice agenda. She examines the theory underpinning each orientation, and develops new theory in the argument for interdependence and integration. Sit
