## Sommario/riassunto

Creativity has become part of the language of regeneration experts, urban planners and government policy makers attempting to revive the economic and cultural life of cities in the 21st century. Concepts such as the creative class, the creative industries and bohemian cultural clusters have come to dominate thinking about how creativity can contribute to urban renewal. Spaces of Vernacular Creativity offers a critical perspective on the instrumental use of arts and creative practices for the purposes of urban regeneration or civic boosterism. Several important con
