Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. 157-180) and index.
Sommario/riassunto	"The global digital network is not just a delivery system for email, Web pages, and digital television. It is a whole new form of urban infrastructure - one that will change the forms of our cities as dramatically as railroads, highways, electric power supply, and telephone networks did in the past. In this book, William J. Mitchell examines this new infrastructure and its implications for our future daily lives."--Jacket.
