

1. Record Nr.	UNINA9910778704703321
Titolo	Research opportunities for materials with ultrafine microstructures [[electronic resource]] : report of the Committee on Materials with Submicron-sized Microstructures, National Materials Advisory Board, Commission on Engineering and Technical Systems, National Research Council
Pubbl/distr/stampa	Washington, DC, : National Academy Press Alexandria, VA, : Available from Defense Technical Information Center, 1989
ISBN	1-280-21272-1 9786610212729 0-309-57191-X 0-585-14399-4
Descrizione fisica	1 online resource (130 p.)
Disciplina	620.1/1299
Soggetti	Materials - Research Microstructure Nanostructured materials
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"NMAB-454."
Nota di bibliografia	Includes bibliographical references (p. 105-106).
Nota di contenuto	""Research Opportunities for Materials with Ultrafine Microstructures""; ""Copyright""; ""Abstract""; ""Acknowledgments""; ""Contents""; ""Tables and Figures""; ""Executive Summary""; ""1 Introduction.""; ""REFERENCES""; ""2 Synthesis and Processing: General Methods ""; ""MOLECULAR SYNTHESIS""; ""REDUCTIVE PYROLYSIS""; ""GEL SYNTHESIS""; ""In Situ Composites""; ""Porous Sol-Gel Composites.""; ""Volatile-Host Method""; ""Infiltrated Composites""; ""SUPERCRITICAL FLUID PROCESSING""; ""LASER PYROLYSIS""; ""COLLOIDAL SYNTHESIS""; ""REACTIVE SPUTTERING""; ""CRYOCHEMICAL SYNTHESIS."" ""CHEMICAL VAPOR SYNTHESIS""""ION-BEAM PROCESSING""; ""MECHANICAL PROCESSING""; ""GAS-CONDENSATION SYNTHESIS""; ""RAPID SOLIDIFICATION PROCESSING""; ""REFERENCES""; ""3 Synthesis and Processing: Morphologically Specific Methods. ""; ""FILAMENTARY

STRUCTURES"; "MULTILAYER STRUCTURES"; "Molecular-Beam Epitaxy"; "Electrodeposition"; "Cluster Beam Deposition"; "DISPERSED-PHASE STRUCTURES"; "Carbon + SiC."; "Si₃N₄ Matrix Composites"; "SiC + TiSi₂"; "Composites in the Ti-Si-C and Ti-Ge-C Systems"; "MACROMOLECULAR COMPOSITE STRUCTURES"; "HETEROGENEOUS NANOCOMPOSITES" "HIGH-SURFACE-AREA MATERIALS" "Impregnation and Ion Exchange."; "Decomposition of Metal Carbonyls"; "Bare Metal Clusters"; "Microporous Solids: Pillared Clays"; "Zeolites"; "MEMBRANES"; "REFERENCES"; "4 Characterization Methods.
