

1. Record Nr.	UNINA9910778865803321
Autore	Chernin Jack
Titolo	Parasitology / / Jack Chernin
Pubbl/distr/stampa	New York : , : Taylor & Francis, , [2000] ©2000
ISBN	1-280-32799-5 9780203171160 9786610327997 0-203-13258-0 0-203-17116-0
Descrizione fisica	1 online resource (153 p.)
Collana	Lifelines
Disciplina	616.9/6
Soggetti	Medical parasitology Parasitology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preliminaries; CONTENTS; S e r i e s e d i t o r ' s preface; 1 Introduction to Parasitology; 2 Protozoa; 3 Platyhelminths; 4 Parasite Examples Grouped According to Life-cycle; 5 Introduction to Host Response; 6 Nutrition and Biochemistry of Parasites; 7 Pathological Effect of the Parasite upon the Host; 8 Epidemiology; 9 Vaccines; 10 Aspects of Malaria; Supplementary reading; S p e c i f i c references; Index
Sommario/riassunto	Parasitology provides all the basic principles of this increasingly studied subject, emphasised by specific, but important examples rather than covering organisms of just one particular group. It is ideally suited to the new modular/semester system now used by most universities and is laid out in the form of `notes' (rather than detailed descriptions), accompanied by simple flow charts and diagrams. Each chapter begins with a list of keywords and concepts. Where appropriate data from research papers is used to illustrate and emphasise the points.
