

1. Record Nr.	UNINA9910778897903321
Titolo	The fragile tropics of Latin America : sustainable management of changing environments / / editors, Toshie Nishizawa, Juha I. Uitto
Pubbl/distr/stampa	Tokyo : , : United Nations University Press, , 1995 ©1995
ISBN	0-585-22997-X
Descrizione fisica	1 online resource (x, 325 pages) : illustrations, maps
Altri autori (Persone)	NishizawaToshie <1929-> UittoJuha I
Disciplina	363.7/0098
Soggetti	Ecology - Latin America Ecology - Tropics Environmental policy - Latin America
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	pt. 1. The ecological outlook: Ecological prospective for tropical Latin America / Gilberto C. Gallopin and Manuel Winograd. Rich and poor ecosystems of Amazonia : an approach to management / Emilio F. Moran. Archaeological perspectives on the potential of Amazonia for intensive exploitation / Betty J. Meggers. Distribution and interannual variability of rainfall in Brazil / Minoru Tanaka, Akio Tsuchiya, and Toshie Nishizawa -- pt. 2. The Brazilian Amazon: Waters and wetlands of Brazilian Amazonia : an uncertain future / Hilgard O'Reilly Sternberg. A fragile capitalism in a fragile environment : entrepreneurs and state bureaucracies in the free zone of Manaus / Roberto Motta -- pt. 3. The Peruvian Amazon: Aquatic and land fauna management among the floodplain ribereños of the Peruvian Amazon / Mario Hiraoka. Subsistence-and market-oriented agroforestry in the Peruvian Amazon / Christine Padoch and Wil de Jong. Local management of forest resources in a rural community in north-east Peru / Miguel Pinedo-Vasquez, Daniel Zarin and Peter Jipp -- pt. 4. Characteristics and utilization of

tree species in the semi-arid woodland of North-East Brazil / Toshie Nishizawa, Akio Tsuchiya and Maria Magdalena Vieira Pinto. Drought, irrigation, and changes in the sertao of North-East Brazil / Isao Saito and Noritaka Yagasaki.

Sommario/riassunto

"Amazonia and adjacent lands have tremendous environmental variations, and approaches to the sustainable management of these fragile lands must be different. Geographers Hiraoka, Nishizawa, Sternberg, and Yagasaki have important contributions among the 14 articles"--Handbook of Latin American Studies, v. 57.
