Sommario/riassunto	Singapore might not have survived the 1960s and prospered thereafter had it not built its economy on the foundations of oil refining, trading and support for oil and gas exploration and production. Cheap oil, sound policies and strong government combined to produce the Singapore economic miracle in its first 50 years of self-rule/independence. With the end of cheap oil, how will Singapore fare and what is the relevance of its model of development for other countries?Singapore's successful launch coincided with a golden period of cheap energy, and a pro-globalization and free t
