

1. Record Nr.	UNISA996418304303316
Titolo	Case-Based reasoning research and development : 28th international conference, ICCBR 2020, Salamanca, Spain, June 8-12, 2020, Proceedings. // Ian Watson, Rosina Weber
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2020] ©2020
ISBN	3-030-58342-2
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (XVII, 355 p. 119 illus., 88 illus. in color.)
Collana	Lecture Notes in Artificial Intelligence ; ; 12311
Disciplina	006.3
Soggetti	Artificial intelligence
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Invited Paper -- Technical Session: Workflows -- Technical Session: Applications in Health -- Technical Session: New paradigms -- Technical Session: Explanations -- Technical Session: Deep learning -- Technical Session: Applications -- Technical Session: Retrieval and Adaptation -- Special Track Challenges & Promises.
Sommario/riassunto	This book constitutes the refereed proceedings of the 28th International Conference on Case-Based Reasoning Research and Development, ICCBR 2020, held in Salamanca, Spain*, in June 2020. The 20 full papers and 2 short papers presented in this book were carefully reviewed and selected from 64 submissions. The theme of ICCBR 2020, "CBR Across Bridges" was highlighted by several activities. These papers, which are included in the proceedings, address many themes related to the theory and application of case-based reasoning and its future direction. *The conference was held virtually due to the COVID-19 pandemic.

The Development of Child Psychiatry: Kanner and Asperger; Chapter 9. Psychoanalysis, BrunoBettelheim, Parents, and Blame; Chapter 10. Organizations and Associations; Chapter 11. The Rise of Neurodiversity:Demands, Advocacy, and Legislation; Chapter 12. Cultural Representations: Outsider and Insider Accounts; Chapter 13. Conclusion: History in the Making; Part III: Major Controversies; Chapter 14. A Lack of Consensus; Chapter 15.Causing Autism
Sommario/riassunto	"Autism is the first book on the condition that seeks to combine medical, historical and cultural approaches to an understanding of the condition. Its purpose is to present a rounded portrayal of the ways in which autism is currently represented in the world, It focuses on three broad areas: the facts of scientific research, including new ideas surrounding research into genetics and neuroscience, as well as the details of diagnosis and therapy; the history of the condition as it

developed through psychiatric approaches to the rise of parent associations, neurodiversity and autism advocacy; and the fictional and media narratives through which it is increasingly expressed in the contemporary moment. Accessible and written in clear English, Autism is designed for student audiences in English, Disability Studies, Cultural Studies, History, Sociology, and Medicine and Health, as well as medical practitioners and the general reader. Autism is a condition surrounded by misunderstanding and often defined by contestation and argument. The purpose of this book is to bring clarity to the subject of autism across the full range of its manifestations"--
