Giving Advice: Decision theory perspectives on sexual assault; 15. The Real World: What good is it?; 16. Assessing adolescent decision-making competence; 17. Questions of Competence: The duty to inform and the limits to choice; Conclusion; Index
Sommario/riassunto	Behavioral decision research offers a distinctive approach to understanding and improving decision making. It combines theory and method from multiple disciplines (psychology, economics, statistics, decision theory, management science). It employs both empirical methods, to study how decisions are actually made, and analytical ones, to study how decisions should be made and how consequential imperfections are. This book brings together key publications, selected to represent the major topics and approaches used in the field. Put in one place, with integrating commentary, it shows the common e

Nota di contenuto	Introduction : Cupid's cognitive arrow -- I'm too sexy for this canvas : why creativity is sexy -- Wanted! neurotic mess the role of personality in mating -- What's your cue? : attractiveness and mate choice in the real world -- Game plans : the highly contextual nature of human mating strategies -- She totally wants me : in the world of mating, biased perceptions are everywhere -- I really am a tall doctor and of course I love you! : mind-reading, emotional intelligence, and deception -- Do nice guys finish last? : the multiple routes to mating success -- Mating intelligence saves the world.
Sommario/riassunto	Psychologists often paint a picture of human mating as visceral, instinctual. But that's not the whole story. In courtship and display, sexual competition and rivalry, we are also guided by what Glenn Geher and Scott Barry Kaufman call Mating Intelligence--a range of mental abilities that have evolved to help us find the right partner. Mating Intelligence is at work in our efforts to form, maintain, and end relationships. It guides us in flirtation, foreplay, copulation, finding and

choosing a mate, and many other behaviors. In *Mating Intelligence Unleashed*, psychologists Geher and Kaufman tak
