## Sommario/riassunto

Religion and religious nationalism have long played a central role in many ethnic and national conflicts, and the importance of religion to national identity means that territorial disputes can often focus on the contestation of holy places and sacred territory. Looking at the case of Israel and Palestine, this book highlights the nexus between religion and politics through the process of classifying holy places, giving them meaning and interpreting their standing in religious and civil law, within governmental policy, and within international and local communities.
